

*Director Toolkit: Decision Making
Data-Informed Decision Making*

AP3 End of Program Survey Data

The purpose of this survey is to help teachers think about how the VPK Assessment supported instructional planning throughout the program. It is suggested that directors meet and discuss this information individually and as a team.

Name:

1. What were the final results from the VPK Assessment Data?
2. What are a few key points that you learned from reviewing and analyzing data from the three assessment periods?
3. How has your instructional practice changed as a result of administering the assessment? How will you make adjustments for the next program session?
4. Based on the VPK Assessment results, what curriculum changes will you make when planning for the next program session? For example, how can you improve the learning environment to provide children with additional practice in specific skill areas.
5. Identify three professional learning goals that would support you in growing your practice.
